Verse: Come all you truck - ers, you min - ers, you weld - ers;

3 Pipe fit-ters, dock work-ers, pick-ers, hops, belt-ers; From all walks of life, from each

6 un - ion and loc - al; Come join the Un - ion Grand.

9 **Chorus:** Come join the grand, grand un-ion of un-ions; Come join the Un-ion Grand. All

13 struggles for justice are strug-gles un-i-ted; Come join the Un - ion Grand.

Come all you truckers, you miners, you welders
Pipe fitters, dock workers, pickers, hops, beltters
From all walks of life, from each union and local
Come join the Union Grand

Solidarity, my friends, there are forces ahold
Institutions and systems running out of control
To harm us and rob us and, worst, to divide us
Come join the Union Grand

Come all you marchers, you chanters, you posters
You tree sitters, sign holders, letter writers, jail goers
For peace and for justice, for the people, for the planet
Come join the Union Grand

Solidarity, my friends, the cogs are upon us
It is life on this planet against the great maw of profit
We must organize and unite if we're ever to stop it
Come join the Union Grand

*Come join the grand, grand union of unions
Come join the Union Grand
All struggles for justice are struggles united
Come join the Union Grand*

Come join the grand, grand union of unions ...

Solidarity, my friends, it is a thunderous word
It can shake the tall towers and roil the wide Earth
We are the tide, we are billions!
Come build the Union Grand

Come build the grand, grand union of unions ...
